Pre-Event Training & Certification Catalog

APRIL 22-23, 2018

SANDS EXPO | THE VENETIAN | THE PALAZZO | LAS VEGAS, NV

SuiteWorld

ORACLE + NETSUITE

LAS VEGAS, NV | APRIL 23-26

Get a head start on success with SuiteWorld18 Pre-Event Training and Certification!

- Sharpen your administrative skills so you can manage your NetSuite account more effectively.
- Become proficient with performing accounting and finance tasks in NetSuite.
- Master reporting and searching techniques to extract critical business intelligence from NetSuite.
- Explore specific features and technologies to customize NetSuite to fit your business needs.
- Prepare for Certification Exams, and then take the exams during the conference!

CHOOSE ONE OF THESE TWO OPTIONS

1

DEEP-DIVE TRAINING

Two days of in-person training and hands-on exercises in which you explore a variety of topics to help you and your organization become even more successful with NetSuite.

2

CERTIFICATION PREP

Two days of concentrated study for the SuiteFoundation, Administrator, ERP Consultant or SuiteCloud Developer Certification Exams. An exam voucher is included with your registration. You can use the voucher to take the exam during the SuiteWorld conference or later at your convenience.

TRAINING AND CERTIFICATION PRICING

\$

PRICING GRID

You can register for pre-event training when you register for SuiteWorld18. You must register for SuiteWorld18 to take advantage of pre-event training. Pre-event training registration closes **Thursday, April 19, 2018, at 11:59 PM PST.**

| | | |
|-----------------------------------------------------------|---------------------------|--------------------------------|
| EARLY BIRD | November 29 – February 16 | \$1,995 |
| GROUP* | November 29 – February 16 | \$1,995 per attendee |
| <small>*4 or more attendees from the same company</small> | | |
| STANDARD | February 16 – April 6 | \$2,195 |
| LATE | April 7 – April 19 | \$2,395 |

When:

Sunday, April 22, and Monday, April 23, 9:00AM – 5:00PM, with a one-hour lunch break.

Breakfast and lunch are included in your registration fee. Breakfast is served beginning at 8:00AM.

Where:

Sands Expo and Convention Center.

What to bring:

A laptop computer with Wi-Fi capability.

COURSE LEVELS

BEGINNER

Assumes you have little or no experience using NetSuite.

INTERMEDIATE

Assumes you have been using NetSuite for at least three months and are familiar with NetSuite navigation and terminology. Some courses might have specific prerequisites or required competencies.

ADVANCED

Assumes you have competencies related to the course topics. Refer to the course descriptions for specific prerequisites.

*NetSuite, Inc. is registered with the National Association of State Boards of Accountancy (NASBA). CPE credits are available for those courses with an asterisk.

DEEP-DIVE TRAINING

Administration

ADMINISTRATOR FUNDAMENTALS | 12 CPE CREDITS

Are you a newly-hired administrator who needs to learn how to manage an existing NetSuite implementation?

Or maybe you're mostly self-taught but would like refresher training on the basics? Sharpen your administrator skills by becoming proficient in the daily tasks of a NetSuite Administrator!

NETSUITE: ADMINISTRATOR FUNDAMENTALS walks through key administrator tasks and responsibilities, providing the foundational knowledge needed to tailor, maintain, and optimize NetSuite for your business needs.

The course begins with a high-level review of NetSuite capabilities, and then turns to on-going setup, configuration and customization tasks that are part of the administrator's responsibilities.

Through use cases, hands-on exercises, and best practices discussions, you will learn how to:

- Describe the general structure of the NetSuite data model
- Modify and create custom roles to enforce security
- Publish dashboards for groups of users
- Use NetSuite customization tools to add fields, control views, and create new tables
- Assist with and troubleshoot reports and searches
- Import data into your NetSuite account, while ensuring data integrity
- Expand NetSuite by taking advantage of SuiteApps
- Evaluate techniques for securing your data and system
- Identify resources to assist with upcoming NetSuite releases.

By the end of this course, you will be able to manage and maintain your NetSuite account like a pro!

View the [Course Data Sheet](#) for more details.

WHO SHOULD ATTEND

New and self-taught administrators who are responsible for the ongoing maintenance and optimization of their organization's NetSuite deployment.

PREREQUISITES

Although knowledge of NetSuite is not required, course participants will benefit if they are already familiar with NetSuite navigation and features. To learn how to navigate NetSuite and perform common tasks, view the Getting Started training videos available on [SuiteAnswers](#).

DEEP-DIVE TRAINING

Administration 

SUITEFLOW: WORKFLOW FUNDAMENTALS | 12 CPE CREDITS

Are you a NetSuite Administrator or manager looking to streamline your organization's business processes, but don't know where to start?

SuiteFlow puts the power of business process automation in the hands of those who understand business processes the most...you

SUITEFLOW: WORKFLOW FUNDAMENTALS provides you with the foundational knowledge and skills necessary to build efficient business processes using SuiteFlow, NetSuite's point-and-click business process automation tool. Using SuiteFlow, administrators and managers can build and maintain their business process workflows without writing a single line of code or understanding complex programming jargon.

This intermediate-level course examines key features and best practices for building custom workflows, such as automating approval routing, performing form-level data validations, sending notification emails, creating related records and more.

Through use cases, hands-on exercises, and best practices discussions, you will learn how to:

- Add field and form-level validations while performing data entry
- Dynamically change form data based on data entry
- Control the display of form data based on whether a form is in edit mode, view mode, or print mode
- Send email notifications
- Automate the creation of tasks, phone calls, and other record types
- Automatically direct an end user to a different page/record within NetSuite
- Generate approval routing workflows with both single and multiple approvers
- Process approval buttons such as Approve and Reject
- Manage approval status
- Support role-based business processes

If you can visualize it, you can build it using SuiteFlow!

View the [Course Data Sheet](#) for more details.

**LEVEL
INTERMEDIATE**

WHO SHOULD ATTEND

NetSuite Administrators, managers, and other non-technical users looking for an introduction to the basic functionality of SuiteFlow. This course is also recommended for those who are pursuing NetSuite ERP Consultant Certification or NetSuite Administrator Certification.

Software developers who already have experience developing workflows using the skills covered in Workflow Fundamentals should take the SuiteFlow: Advanced Workflows course.

PREREQUISITES

Although not required, course participants should be familiar with NetSuite navigation and general administration tasks. Prior attendance in [NetSuite Essentials](#) or [SuiteCloud: Exploring the NetSuite Platform](#) is recommended. To learn more about NetSuite navigation and performing common administrative tasks, view the Getting Started training videos available on [SuiteAnswers](#).

DEEP-DIVE TRAINING

Accounting & Finance 

FINANCIAL MANAGEMENT | 12 CPE CREDITS + VOUCHER FOR FINANCIAL USER CERTIFICATION

Learn to use NetSuite's comprehensive financial management capabilities to expand your traditional accounting skills!

**NEW FINANCIAL USER CERTIFICATION**

The Financial Management course topics are closely aligned with the new **NetSuite Certified Financial User Certification Exam** subject areas. Consider becoming NetSuite Certified after completing this course.

A voucher for the NetSuite Certified Financial User Certification Exam is included with your registration. You can use the voucher to take the exam after the conference.

NETSUITE: FINANCIAL MANAGEMENT introduces key day-to-day, monthly, quarterly, and yearly activities for performing finance and accounting tasks in NetSuite. The course begins by examining transactions associated with selling and purchasing goods and services, as well as how those transactions flow through your business processes and ultimately into your financial reports.

Next, you'll explore general ledger features such as classifications, working with journal entries, budgeting, and expense allocations. The course concludes by showing you how to close the books for the period, quarter or year end, and teaches you how to tailor your Home Dashboard to quickly access business intelligence and manage activities.

Through case studies, hands-on exercises, and best practices discussions, you'll learn how to:

- Manage customer relationships to ensure that your company's General Ledger is paid the money owed for providing goods or services
- Manage vendor relationships to ensure that your company reflects the debts owed for receiving goods or services
- Identify and use NetSuite's general ledger functionality
- Create saved searches to access and dynamically display key data
- Apply custom formatting to financial statements so that data is presented in a way that makes the most sense for your organization
- Setup and use multiple budgets so that you can plan your future income and expenditures, then track business performance against the plan.

By the end of this course, you will be able to obtain complete, real-time visibility into the financial performance of your business!

View the [Course Data Sheet](#) for more details.

**LEVEL
BEGINNER**

WHO SHOULD ATTEND

Finance and accounting professionals who are new to using NetSuite and responsible for accounting, budgeting, billing, and preparing financial reports.

PREREQUISITES

Participants should understand basic accounting concepts and terminology.

Although not required, course participants will benefit if they are already familiar with NetSuite navigation and features. To learn how to navigate NetSuite and perform common tasks, view the Getting Started training videos available on [SuiteAnswers](#).

DEEP-DIVE TRAINING

Accounting & Finance 

SUITEANALYTICS: FINANCIAL REPORTS AND SEARCHES | 12 CPE CREDITS

Want to give your CFO and CEO another reason to love your work?

Learn to access and analyze finance and accounting data to better inform and influence your company's success!

**NEW SUITEANALYTICS USER CERTIFICATION**

These SuiteAnalytics course topics are closely aligned with the new **NetSuite Certified SuiteAnalytics User Certification Exam** subject areas. Consider becoming NetSuite Certified after completing this course. A voucher for the NetSuite Certified SuiteAnalytics User Certification Exam is included with your registration. You can use the voucher to take the exam after the conference.

SUITEANALYTICS: FINANCIAL REPORTS AND SEARCHES will help you use and customize NetSuite reports, financial statements, searches, and KPIs to unlock your financial data so you can diagnose issues on the fly. You'll also learn how to drill-down into customer, employee, or transactional details for more comprehensive analysis so you and your management team can make more informed decisions.

Through real-world use cases, hands-on exercises and best practices discussions, you will learn how to:

- Include budget details and extra fields in financial statements
- Use formulas in reports and searches to get in-depth financial analyses
- Apply custom formatting to financial statements
- Create saved searches to access and dynamically display key data
- Apply expressions, functions, and basic SQL formulas to searches for more complex analysis
- Set up financial dashboards and display real-time accounting data.

By the end of this course, you will be able to access the critical data you need to respond proactively to business challenges.

View the [Course Data Sheet](#) for more details.

LEVEL
INTERMEDIATE

WHO SHOULD ATTEND

CFOs, CPAs, accountants, controllers, financial managers and bookkeepers.

PREREQUISITES

Participants should have at least three months' experience using NetSuite.

Participants should already be familiar with NetSuite navigation and features. To learn how to navigate NetSuite and perform common tasks, view the Getting Started training videos available on [SuiteAnswers](#).

DEEP-DIVE TRAINING

Business Intelligence

SUITEANALYTICS: REPORTS AND SEARCHES | 12 CPE CREDITS

Why guess? Learn to use reports and searches to get the intelligence you need to run your business!

NEW SUITEANALYTICS USER CERTIFICATION

These SuiteAnalytics course topics are closely aligned with the new **NetSuite Certified SuiteAnalytics User Certification Exam** subject areas. Consider becoming NetSuite Certified after completing this course. A voucher for the NetSuite Certified SuiteAnalytics User Certification Exam is included with your registration. You can use the voucher to take the exam after the conference.

SUITEANALYTICS: REPORTS AND SEARCHES will help you turn your data into knowledge and your knowledge into business strategies that take you where you want to go. Learn how to obtain actionable analysis, enforce business processes, and get real-time views into company data across sales, marketing, service and fulfillment.

Through real-world use cases, hands-on exercises and best practices discussions, you'll learn how to:

- Customize reports to meet specific user requirements
- Display real-time data to track key metrics and spot trends
- Create searches to access and dynamically display key data
- Apply expressions, functions, and basic SQL formulas for more complex analysis
- Create custom KPIs to display critical data in easy-to-read charts and graphs
- Create personalized dashboards rich with tools to analyze operational performance

By the end of this course, you'll be able to create role-specific reports, saved searches, and KPIs to help drive the success of your business.

View the [Course Data Sheet](#) for more details.

**LEVEL
INTERMEDIATE**
WHO SHOULD ATTEND

NetSuite Administrators, managers, and users who need to create reports and searches. Finance and accounting users who need to create and customize financial reports should take the SuiteAnalytics: Financial Reports and Searches course.

PREREQUISITES

Participants should have at least three months' experience using NetSuite.

Participants should already be familiar with NetSuite navigation and features. To learn how to navigate NetSuite and perform common tasks, view the Getting Started training videos available on [SuiteAnswers](#).

DEEP-DIVE TRAINING

Business Intelligence

SUITEANALYTICS: ADVANCED SEARCHES | 12 CPE CREDITS

Go the distance! Acquire the final set of skills needed to create saved searches that mine your NetSuite data for invaluable business intelligence.

NEW SUITEANALYTICS USER CERTIFICATION

These SuiteAnalytics course topics are closely aligned with the new **NetSuite Certified SuiteAnalytics User Certification Exam** subject areas. Consider becoming NetSuite Certified after completing this course. A voucher for the NetSuite Certified SuiteAnalytics User Certification Exam is included with your registration. You can use the voucher to take the exam after the conference.

SUITEANALYTICS: ADVANCED SEARCHES will help you dig deep into your data. You will learn to apply advanced saved search functionality to build searches that include parenthetical expressions, joins to access data, and functions and summary types to format date and numeric values. Taking your skills even further, you'll also learn how to incorporate formulas and SQL functions to translate values, calculate dates and numbers, generate matrix style output, format dates and numbers, render results with embedded HTML, apply complex criteria and more.

Through real-world use cases, hands-on exercises and best practices discussions, you'll learn how to:

- Enhance search criteria by incorporating parenthetical expressions
- Use 'Main Line is False' in searches
- Use joins in searches to access other data elements
- Change the sorting behavior of maximum and minimum search values
- Work with column labels by adding HTML tags and line breaks
- Perform basic computations between two or more NetSuite fields
- Return list/record fields as hyperlinks to easily navigate to other records via the search results
- Make best use of many Oracle SQL functions: CASE, DECODE, TO_CHAR, UPPER, INSTR, SUBSTR, TO_NUMBER, NVL, NULLIF, ROUND, FLOOR, LAST_DAY, ADD_MONTHS, REGEXP_LIKE, RANK, DENSE_RANK, COUNT, AVG, MEDIAN and others.

By the end of this course, you'll have implemented formulas across a variety of use cases, giving you skills that you can apply to extracting critical business intelligence from your NetSuite data.

View the [Course Data Sheet](#) for more details.

WHO SHOULD ATTEND

NetSuite administrators, super users, managers, business analysts, and software developers responsible for data analysis through saved searches.

PREREQUISITES

Participants should be experienced with creating saved searches in NetSuite. Prior completion or the equivalent knowledge of either the **SuiteAnalytics: Financial Reports and Searches** or **SuiteAnalytics: Reports and Searches** courses is recommended.

Experience with HTML and SQL is helpful, but not required.

DEEP-DIVE TRAINING

Business Intelligence

OPENAIR REPORTING | 11 CPE CREDITS

Learn to use OpenAir's highly configurable reporting features and obtain real-time visibility into key project-based metrics to increase your company's efficiency and profitability!

NETSUITE OPENAIR REPORTING walks through the capabilities, setup, configuration, and maintenance of reporting in OpenAir.

The course begins with examining OpenAir reporting basics, building crosstabbed and tabular reports, and then turns to report customization, modifying pre-built advanced reports, and other functions such as publishing dashboard charts.

Through real-world use cases, hands-on exercises, and best practices discussions, you'll learn how to:

- Navigate through the reports manager interface
- Build crosstabbed and tabular reports
- Create basic key metric reports to gain visibility into strategic business operations
- Create custom calculation fields and apply them to reports
- Build advanced reports
- Distribute reports throughout the organization
- Schedule reports
- Display report results in visual charts or graphs.

By the end of this course, you'll be able to create and manage robust reports in your OpenAir account.

View the [Course Data Sheet](#) for more details.

LEVEL
INTERMEDIATE

WHO SHOULD ATTEND

OpenAir administrators, business data analysts, project managers, and super users responsible for setting up, configuring and maintaining report in OpenAir.

PREREQUISITES

Participants should be familiar with OpenAir navigation and features. Prior attendance in **NetSuite OpenAir Essentials** or equivalent knowledge is recommended.

DEEP-DIVE TRAINING

Customization

ADVANCED PDF/HTML TEMPLATES: CUSTOMIZING PRINTOUTS AND EMAILS

Stop struggling with customizing transaction printouts & emails, and customizing other system communications to your specifications!

ADVANCED PDF/HTML TEMPLATES: CUSTOMIZING PRINTOUTS AND EMAILS will help you master the customization of NetSuite Advanced PDF/HTML Templates and creation of Scriptable Templates. Don't worry if you're a newbie. Our expert instructors will start with the basics, such as showing you everything you can do with the WYSIWYG editor of Advanced PDF/HTML Templates. Then you'll explore all you can do in source code editing mode. Of interest to developers in particular, you'll also have access to self-paced training on how to add power to Advanced PDF/HTML Templates using SuiteScript 2.0.

Through real-world use cases, hands-on exercises and best practices discussions, you will learn how to:

- Customize Advanced PDF/HTML Templates using WYSIWYG and source code editing modes
- Create Scriptable Templates using WYSIWYG and source code editing modes
- Embed FreeMarker expressions and directives in Advanced PDF/HTML Templates and Scriptable Templates
- Embed BFO (Big Faceless Organization) tags in Advanced PDF/HTML Templates
- Render Advanced PDF/HTML Templates via SuiteScript 2.0 (self-paced topic)

By the end of this course, you will be able to customize Advanced PDF/HTML Templates and create Scriptable Templates to match your business needs.

**LEVEL
INTERMEDIATE**

WHO SHOULD ATTEND

Administrators and software developers who need to customize their transaction printouts with Advanced PDF/HTML Templates and email communications using Scriptable Templates.

PREREQUISITES

Participants should have at least 3 months' experience using NetSuite, including familiarity with NetSuite navigation and features. To learn how to navigate NetSuite and perform common tasks, view the Getting Started training videos available on [SuiteAnswers](#).

Participants should have working knowledge of HTML tags, HTML attributes and CSS, including their syntax. If you do not have the required knowledge, search the internet to find numerous tutorials on HTML and CSS to get the background you need.

Experience using SuiteScript 2.0 is necessary only for participants who intend to automate the processing of Advanced PDF/HTML Templates with SuiteScript (this prerequisite is related to the self-paced topic).

DEEP-DIVE TRAINING

Customization

SUITESCRIPT 2.0 FOR EXPERIENCED SUITESCRIPT DEVELOPERS

Are you experienced with SuiteScript 1.0, but have yet to take the leap into SuiteScript 2.0?

Take your SuiteScript development to the next level by getting up to speed on SuiteScript 2.0 and see all that it has to offer!

SUITESCRIPT 2.0 FOR EXPERIENCED SUITESCRIPT DEVELOPERS teaches you how to apply your existing knowledge of User Event, Client, Suitelet, and other script types, so you can write those scripts in the new SuiteScript 2.0 syntax. You'll reinforce concepts around the script architecture you already know while learning the new syntax of SuiteScript 2.0. Along the way, you will also gain experience with new script types such as Map/Reduce, new APIs like the Promise API, as well as creating your own custom modules.

Through real-world use cases and hands-on exercises, you will learn how to:

- Create scripts in SuiteScript 2.0 syntax
- Manually convert 1.0 scripts to 2.0 scripts
- Work with SuiteScript 2.0 Global Objects
- Incorporate a variety of SuiteScript 2.0 Modules
- Interact with the SuiteScript 2.0 Promise APIs
- Use map/reduce to process large amounts of data
- Integrate existing 3rd party APIs with your script
- Take full advantage of the SuiteScript API, incorporating a wide-variety of functions and objects
- Use client and server-side debugging tools to troubleshoot your scripts

By the end of this course, you will have the necessary skills to successfully write custom scripts with SuiteScript 2.0.

View the [Course Data Sheet](#) for more details.

WHO SHOULD ATTEND

Software developers who are experienced writing SuiteScript 1.0 scripts.

PREREQUISITES

Participants should have a solid understanding of SuiteScript 1.0. Prior completion or the equivalent knowledge of the **SuiteScript 1.0: Extend NetSuite with JavaScript** course is required.

Note: This is a delta course for experienced SuiteScript developers.

HARDWARE/SOFTWARE REQUIREMENTS

Participants should have the **SuiteCloud IDE** (or preferred development environment) pre-installed on the computer they will be using in class.

DEEP-DIVE TRAINING

Customization

SUITEFLOW: ADVANCED WORKFLOWS

Are you ready to roll up your sleeves and learn how to create complex business process automations in NetSuite?

This course will show you how.

SUITEFLOW: ADVANCED WORKFLOWS is an accelerated version of the three-day SuiteFlow: Workflows for Developers course where you'll learn the skills necessary to build multifaceted business processes using NetSuite's point-and-click business process automation tool: SuiteFlow.

Geared towards experienced technical NetSuite users, this course will introduce you to many of SuiteFlow's advanced capabilities for more complex use cases, such as approval workflows that support both sequential and multiple approvals, configuring service-level agreements and lead nurturing campaigns, processing multiple workflows in parallel using sub-workflows, using saved searches in action and transition conditions, altering workflow processing based on changes to related records, and extending SuiteFlow using formulas and SuiteScript.

Through real-world use cases, hands-on exercises and best practices discussions, you'll learn how to:

- Incorporate modular workflow design principles to reduce workflow complexity
- Create approval processing workflows with sequential and multiple approvals
- Configure basic service-level agreements using scheduled actions and transitions
- Conditionally transition workflows and execute actions based on saved search results
- Alter the state of a workflow based on changes to data in related records
- Configure business processes that run in parallel using sub-workflows
- Embed SQL and SuiteScript formulas in conditions to support more complex business rules
- Configure Workflow Action SuiteScripts to support custom actions
- Execute workflows in different contexts, such as User Event SuiteScripts, Suitelets, and mass updates

By the end of this course, you'll be able to apply your new skills to automate complex business processes in your NetSuite account.

LEVEL
ADVANCED

WHO SHOULD ATTEND

This course is geared towards experienced administrators, software developers, and other technical users who are looking to enhance their existing SuiteFlow knowledge and skills to support more technically complex business processes and use cases in NetSuite.

Non-technical users should attend **SuiteFlow: Workflow Fundamentals**.

If you've already attended SuiteFlow: Workflows for Developers, you don't need to take this course unless you'd like to brush up your skills.

PREREQUISITES

Participants should have an understanding of business process mapping and decision branching, event-based programming, and object-oriented software development principles.

Certification Prep

SUITEFOUNDATION EXAM PREPARATION | 12 CPE CREDITS

Are you ready to become NetSuite SuiteFoundation Certified?

Do you want your knowledge validated and recognized?

Participate in this “Ask-The-Experts” study session, and then take the SuiteFoundation Exam!

EXAM VOUCHER

A voucher for the SuiteFoundation Exam is included with your registration. You can use the voucher to take the exam during the SuiteWorld conference or later at your convenience. If you pass the exam while at SuiteWorld, you'll be able to promote your certification status during the conference!

In the **NETSUITE CERTIFICATION: SUITEFOUNDATION EXAM PREPARATION** course, you'll brush up your NetSuite knowledge by participating in interactive group study. Guided by a NetSuite expert, you'll examine frequently missed subject areas from the SuiteFoundation Exam while reviewing key NetSuite features and capabilities. You'll begin by studying setup tasks, reviewing standard process flows, and exploring web store functionality while building an intranet in a demo account. Next, you will compare audit and search functions, as well as data manipulation options.

Lectures, hands-on exercises and best practices discussions will focus on subject areas specific to the SuiteFoundation Exam, such as:

- Setup and navigation
- Item setup and basic inventory management
- Sales order processing
- NetSuite Site Builder web store capabilities
- Data management
- Managing NetSuite

Additional topics covered during the study session will be driven by the participants' needs and questions.

By the end of this course, you'll be able to evaluate your readiness to take the SuiteFoundation Exam and identify where you might need further study.

View the [Course Data Sheet](#) for more details.

LEVEL INTERMEDIATE

WHO SHOULD ATTEND

NetSuite Administrators and Partners with at least six months' experience using or implementing NetSuite.

NetSuite power users willing to learn additional areas of the NetSuite application. Anyone interested in completing these additional NetSuite Certifications:

- NetSuite Certified Administrator
- NetSuite Certified ERP Consultant
- NetSuite Certified SuiteCloud Developer

PREREQUISITES

Participants should have at least six months' experience using NetSuite.

Prior completion or the equivalent knowledge of the NetSuite Essentials course is recommended.

For more information about required skill levels, recommended courses and the certification exams, visit the [NetSuite Certification Program](#) site.

Certification Prep

ADMINISTRATOR EXAM PREPARATION | 10 CPE CREDITS

Are you ready to become a NetSuite Certified Administrator?

Do you want your knowledge validated and recognized?

Participate in this “Ask-The-Experts” study session, and then take the Administrator Exam!

EXAM VOUCHER

A voucher for the NetSuite Administrator Exam is included with your registration. You can use the voucher to take the exam during the SuiteWorld conference or later at your convenience. If you pass the exam while at SuiteWorld, you'll be able to promote your certification status during the conference!

In the **NETSUITE CERTIFICATION: ADMINISTRATOR EXAM PREPARATION** course, you'll brush up your NetSuite knowledge by participating in interactive group study. Guided by a NetSuite expert, you'll examine key subject areas and use cases while reviewing NetSuite features and capabilities. You'll begin by studying setup tasks, examining users, roles and permission, and performing common application customizations. The second part of the course focuses on platform capabilities such as reporting, searching, and process automation.

Lectures, hands-on exercises and best practices discussions will focus on subject areas specific to the Administrator Exam, such as:

- SetUp
- Roles, permissions, and audit
- Custom forms
- Custom records
- Advanced search
- Formulas in search
- Dashboards
- CSV data import
- SuiteFlow
- Intranet

Additional topics covered during the study session will be driven by the participants' needs and questions.

By the end of this course, you'll be able to evaluate your readiness to take the Administrator Exam and identify where you might need further study.

View the [Course Data Sheet](#) for more details.

WHO SHOULD ATTEND

Administrators, consultants or business analysts who want to become NetSuite Certified Administrators.

PREREQUISITES

Participants should have at least one year of experience configuring and managing a robust NetSuite implementation. Participants should be able to perform the day-to-day tasks of managing the application to meet company needs. Their role should be to support users, and they should have an understanding of the standard business processes, standard accounting practices, advanced features, options, and capabilities of the product. Participants should also complete the NetSuite recommended training courses prior to this session to ensure they have the necessary product knowledge. For more information about required skill levels, recommended courses and the certification exams, visit the [NetSuite Certification Program](#) site.

Certification Prep

ERP CONSULTANT EXAM PREPARATION | 12 CPE CREDITS

Are you ready to become a NetSuite Certified ERP Consultant?

Do you want your knowledge validated and recognized?

Participate in this “Ask-The-Experts” study session, and then take the ERP Consultant Exam!

EXAM VOUCHER

A voucher for the ERP Consultant Exam is included with your registration. You can use the voucher to take the exam during the SuiteWorld conference or later at your convenience. If you pass the exam while at SuiteWorld, you'll be able to promote your certification status during the conference!

In the **NETSUITE CERTIFICATION: ERP CONSULTANT EXAM PREPARATION** course, you will brush up your NetSuite knowledge by participating in interactive group study. Guided by a NetSuite expert, you'll examine key subject areas and use cases while reviewing NetSuite features and capabilities. You'll begin by studying ERP capabilities such as accounting and financial management. The second part of the course concentrates on platform capabilities such as reporting, searching, customization and process automation.

Lectures, hands-on exercises and best practices discussions will focus on subject areas specific to the ERP Consultant Exam, such as:

- NetSuite ERP: Accounting and finance capabilities
- NetSuite OneWorld: Subsidiary structures and global implementations
- Items and Inventory: Item records and basic inventory management
- SuiteCloud Platform: Customization, reporting and searching, and workflow engine
- Data Strategy: Data migration and structure

Additional topics covered during the study session will be driven by the participants' needs and questions.

By the end of this course, you will be able to evaluate your readiness to take the ERP Consultant Exam and identify where further study might be needed.

View the [Course Data Sheet](#) for more details.

WHO SHOULD ATTEND

Consultants, business analysts or implementation project team members who want to become NetSuite Certified ERP Consultants.

PREREQUISITES

Participants should have the equivalent experience of performing five to ten medium scale, or two to three enterprise NetSuite ERP implementations, which is roughly equivalent to at least two years' experience of NetSuite implementations in a consultant-related role. Participants should also complete the NetSuite recommended training courses prior to this session to ensure they have the necessary product knowledge. For more information about required skill levels, recommended courses and the certification exams, visit the [NetSuite Certification Program](#) site.

Certification Prep

SUITECLOUD DEVELOPER EXAM PREPARATION | UPDATED FOR SUITESCRIPT 2.0

Are you ready to become a NetSuite Certified SuiteCloud Developer?

Do you want your knowledge validated and recognized?

Participate in this “Ask-The-Experts” study session, and then take the SuiteCloud Developer Exam! The exam is an updated version where SuiteScript 1.0 questions are replaced with SuiteScript 2.0 questions.

EXAM VOUCHER

A voucher for the NetSuite SuiteCloud Developer Exam (upgraded to SuiteScript 2.0) is included with your registration. You can use the voucher to take the exam during the SuiteWorld conference or later at your convenience. If you pass the exam while at SuiteWorld, you will be able to promote your certification status during the conference!

In the **NETSUITE CERTIFICATION: SUITECLOUD DEVELOPER EXAM PREPARATION** course, you will brush up on your NetSuite developer knowledge by participating in an interactive group study session. Guided by a NetSuite expert, you examine key subject areas and use cases while reviewing NetSuite features and capabilities.

Study materials cover information related to the test objectives within the seven subject areas of the exam. You are provided a NetSuite demo account containing numerous SuiteScripts (all using SuiteScript 2.0) and workflows (SuiteFlow), along with SuiteTalk code examples in Java and C#.

Lectures, hands-on exercises and best practices discussions will focus on subject areas specific to an updated version of the developer exam available at SuiteWorld, the main differentiation with the current exam objectives being use of SuiteScript 2.0 instead of SuiteScript 1.0:

- SuiteScript 2.0
- SuiteFlow
- SuiteTalk
- SuiteBundler
- SuiteAnalytics
- Design Fundamentals

Additional topics covered during the study session will be driven by the participants’ needs and questions. By the end of this course, you will be able to evaluate your readiness to take the SuiteCloud Developer Exam and identify where further study might be needed.

Note: Participants should have the SuiteCloud IDE (or preferred development environment) pre-installed on the computer they will be using in class.

WHO SHOULD ATTEND

Software developers who are qualified to take the SuiteCloud Developer Exam, a version where all SuiteScript is exclusively on SuiteScript 2.0.

PREREQUISITES

Based on the description of a qualified candidate, participants should have 1-2 years of experience working with a range of SuiteCloud technologies and 2-3 years of relevant software development experience. Participants should have working knowledge on creating SuiteScripts with SuiteScript 2.0, workflows (SuiteFlow) and integrations (SuiteTalk/RESTlets). Participants should also complete the recommended training courses prior to this session to ensure they have the necessary product knowledge: SuiteAnalytics: Reports and Searches, SuiteAnalytics: Advanced Searches, SuiteCloud: Exploring the NetSuite Platform, SuiteFlow: Workflows for Developers, SuiteTalk: Integrate Your Applications and a SuiteScript 2.0 course (SuiteScript 2.0: Extend NetSuite with JavaScript OR SuiteScript 2.0 for Experienced SuiteScript Developers).

Visit the [NetSuite Certification Program](#) site for more information, but bear in mind you are preparing to take a SuiteCloud Developer Exam that focuses exclusively on SuiteScript 2.0 (no SuiteScript 1.0).
